PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in data analysis, data visualization, and dashboard development using Power BI and Excel. Completed job simulations with Quantum and Deloitte covering data preparation, customer analytics, and forensic technology. Additional background in graphic design with strong visual communication skills. Actively developing skills in SQL and Python. Seeking an entry-level Data Analyst position to contribute analytical thinking and deliver data-driven insights.

CORE SKILLS

Data & Analytics

- Power BI — DAX, Data Modeling, Dashboard Design, KPI Cards, Slicers, Interactive Reports
- Microsoft Excel — Pivot Tables, VLOOKUP, IF Functions, Charts, Data Summarization
- Python — Basic programming; currently learning Pandas and data cleaning techniques
- SQL — College-level DBMS knowledge (SELECT, JOIN, GROUP BY, Aggregation); actively practicing
- Data Visualization, Exploratory Data Analysis, KPI Reporting, Business Insights

Design

- Adobe Photoshop, Figma, Canva — UI/UX Design, Wireframing, Prototyping
- Branding, Visual Identity, Typography, Color Theory, Layout Design, Visual Communication

CERTIFICATIONS & JOB SIMULATIONS

Quantium — Data Analytics Job Simulation | Forage

June 2026

- Completed practical tasks in data preparation and customer analytics, experimentation and uplift testing, and analytics and commercial application.

Deloitte — Data Analytics Job Simulation | Forage

June 2026

- Completed practical tasks in data analysis and forensic technology under Deloitte's analytics practice framework.

PROJECTS

Valorant Agent Performance Dashboard | Power BI

May 2026

- Built an end-to-end ranked match analytics dashboard tracking K/D ratio, headshot %, win rate, and RR trend across 12 agents and 7 maps over 50 matches.
- Identified that Cypher delivered a 100% win rate and highest positive RR (+21) despite mid-tier kill counts — demonstrating how utility-focused playstyle outperforms raw kill stats in ranked progression.
- Used DAX measures, calculated columns, KPI cards, bar charts, and overtime RR trend line with dynamic agent and map slicers.

MedTech – Healthcare Management Mobile App UI/UX Design

August 2025 - March 2026

- Independently designed approximately **90% of the mobile application UI** for the final-year healthcare management project.
- Created user flows, wireframes, and high-fidelity prototypes to ensure an intuitive and user-friendly experience.
- Designed key screens including authentication, dashboard, patient management, appointment scheduling, and healthcare service interfaces.

FREELANCE WORK

Oil Bright Academy, Manjeri — Freelance Graphic Designer

Jan 2026 - May 2026

- Designed brand-consistent social media creatives and digital marketing materials, contributing to a 30% increase in social media engagement.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

2022 – 2026

MEA Engineering College, Perinthalmanna
APJ Abdul Kalam Technological University, Kerala

ACTIVITIES & VOLUNTEERING

IEEE MEA Student Branch - Design Team Member, MEA Engineering College

2023 – 2026

- Designed promotional materials and event creatives for IEEE college-level technical activities and events.

TACS CS Department - Design Team Member, MEA Engineering College

2023 – 2025

- Designed and published **6+ promotional posters and social media creatives** for departmental events, workshops, and competitions.

ADDITIONAL INFORMATION

Languages: English, Malayalam

Interests: Data Analytics, Business Analytics, IT Analytics, Operations Analytics, UI/UX Design, Graphic Design
