PROFESSIONAL SUMMARY

Frontend-focused Computer Science graduate with practical experience in React, JavaScript/TypeScript, Next.js, WordPress, and responsive UI development. Built real-world e-commerce and Shopify experiences with custom sections, GSAP-powered interactions, and SEO optimization. Skilled in responsive UI, on-page SEO, metadata optimization, and technical SEO fundamentals, with a strong interest in product-focused frontend engineering and polished digital experiences.

CORE SKILLS

Frontend: JavaScript (ES6+), React, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

UI Development: Responsive Design, Component-Based Development, Figma-to-Code, Cross-Browser Compatibility, Mobile-First Design, Accessibility-Minded UI

Animation & Interaction: GSAP, GSAP ScrollTrigger, Lenis Smooth Scroll, Scroll Animations, Entrance Animations, Interactive UI

Shopify: Shopify Theme Development, Liquid, Dawn Theme Customization, Custom Sections, E-commerce Storefront Development

Development & Deployment: Git, GitHub, Vercel, REST API, PostgreSQL, MySQL, Prisma ORM, JSON, Chrome DevTools, Responsive Testing

UI/UX & Design: Figma, Adobe XD, Wireframing, User Flows, High-Fidelity Prototyping, Design Systems, Visual Hierarchy

Other: Canva, Adobe Photoshop, Claude, ChatGPT, Google Flow, Higgsfield, AI Video Generation, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Bosco Transportation Inc.

August 2026 — boscotransport.ca

- Designed and developed a **3-page responsive transportation and logistics website** using Next.js, React, TypeScript and Tailwind CSS.
- Built and structured **9 major website sections**, including service and fleet-focused sections, with responsive layouts for desktop, tablet and mobile devices.
- Implemented **6 interactive animations and UI interactions** using GSAP, GSAP ScrollTrigger and Lenis Smooth Scroll.
- Integrated a **functional contact form** and implemented SEO-focused optimizations including image optimization, metadata, canonical URLs and other on-page SEO elements.
- Worked as part of the Dexiko freelance development team, owning frontend implementation, UI development, responsive design, animation integration and SEO implementation for the client website.

Lil Whip – Bakery E-Commerce Website

July 2026 — lilwhip.in

- Designed and developed a full-stack bakery e-commerce platform using Next.js, React, TypeScript and Tailwind CSS, currently supporting **32 products** with an extensible product management system.
- Developed **8+ customer and administrative pages/routes**, including Home, About, Product Menu, Product Details, Checkout, Product Listing, Admin Dashboard and Category Management.
- Implemented e-commerce functionality including product browsing, category filtering, product details, shopping cart and checkout workflows.
- Implemented **Google authentication** and integrated a PostgreSQL database with a structured schema, deployed using Neon for persistent application data.
- Developed an administrative product management system allowing authorized administrators to add and remove products, update pricing and manage product categories.
- Designed the architecture to support future payment and messaging integrations, with the current workflow supporting cart and checkout operations.
- Designed the complete storefront UI and brand-consistent product experience, with the application deployed through Vercel.

SELECTED PROJECTS

Snox AI – WordPress Website Demo

[Live Demo](#)

- Designed and developed a modern AI event-photography platform website from scratch using WordPress, focusing on responsive layouts, premium visual presentation and conversion-oriented UI.

Obsidian – Custom Shopify Theme

[Project](#)

- Developing a premium Shopify theme by extending Shopify Dawn. Built custom storefront sections including lookbook gallery, video slideshow, marquee banners and flip carousels.
- Integrated GSAP for smooth scrolling and entrance animations.

Apollo Sports – Interactive E-Commerce Demo

Live Demo

- Developed a premium sports e-commerce experience with immersive product presentation, responsive layouts, interactive sections and scroll-based animations.

Ray-Ban – Interactive Product Experience Demo

Live Demo

- Built a premium eyewear product experience featuring interactive storytelling, product presentation, image-driven sections and smooth scroll-based interactions.

MedTech – Healthcare Management Mobile App UI/UX

Aug 2025 – Mar 2026

- Independently designed approximately 90% of the UI for a final-year healthcare management application. Created user flows, wireframes and high-fidelity Figma prototypes for authentication, patient management, appointments and dashboards.

PUBLICATION

A Smart Clinic and Pharmacy Management System Integrating AI-Based Prescription Assistance and Inventory Prediction

Publication

Published in the **International Journal of Engineering Research & Technology (IJERT)** as part of the final-year project.

CERTIFICATIONS & TRAINING

• Artificial Intelligence – Torc Infotech	June 2024
• Computer Networking – Network Bulls	October 2025
• Quantium – Data Analytics Job Simulation, Forage	June 2026
• Deloitte – Data Analytics Job Simulation, Forage	June 2026

EDUCATION

Bachelor of Technology – Computer Science & Engineering

2022 – 2026

MEA Engineering College, Perinthalmanna — APJ Abdul Kalam Technological University, Kerala.

ACTIVITIES & LANGUAGES

- IEEE MEA Student Branch – Design Team Member (2023–2026)
- TACS CS Department – Design Team Member (2023–2025)
- Led the end-to-end planning, coordination, and execution of the Cultural Fest and Music Night at IEEE MEA SB XTRINIA 7.0.
- Created promotional materials and event creatives for technical activities, workshops and competitions.

Languages: English, Hindi, Malayalam (Native).
